Random thoughts and notes:

The augmentation given by Hao could be the same as what Kunio sells. You meet Hao so late in the mod that players might feel cheated if they had to wait until then to get their last aug; but there might be people who didn't buy Kunio's aug because they thought they'd get it later – they'll get it this far towards the end of the mod so as to make it worthwhile to buy the aug from Kunio.

We should make the augs given by Scara and found in Despot's apartment available in the PDX storyline as well, both are currently limited to the WC storyline. The aug given by Jonas, however, doesn't have to be given somewhere else since WC-aligned player can grab it when they're infiltrating the PDX HQ to find Despot.
